

TEST\_CASE

TEST\_CASE

BNO08x::enable\_uncalibrated\_gyro

```
graph LR; TC1[TEST_CASE] --> BNO[BNO08x::enable_uncalibrated_gyro]; TC2[TEST_CASE] --> BNO;
```

The diagram illustrates a test setup. On the left, there are two white rectangular boxes, each labeled 'TEST\_CASE'. Blue arrows point from the right side of each 'TEST\_CASE' box to the left side of a single, wider gray rectangular box on the right. This gray box is labeled 'BNO08x::enable\_uncalibrated\_gyro'.
