

BNO08x::get_range

BNO08x::get_resolution

BNO08x::get_Q1

```
graph LR; A[BNO08x::get_range] --> C[BNO08x::get_Q1]; B[BNO08x::get_resolution] --> C;
```

The diagram illustrates a relationship between three functions. On the left, two white rectangular boxes with black borders contain the text 'BNO08x::get_range' (top) and 'BNO08x::get_resolution' (bottom). On the right, a gray rectangular box with a black border contains the text 'BNO08x::get_Q1'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both 'get_range' and 'get_resolution' are related to or perhaps call 'get_Q1'.
