

BNO08xTestHelper::call  
\_init\_config\_args

```
graph LR; A[BNO08xTestHelper::call_init_config_args] --> B[BNO08x::init_config_args]; B --> C[BNO08x::reset_all_data_to_defaults];
```

The diagram illustrates a three-step process for BNO08x initialization. It begins with a grey box containing the text 'BNO08xTestHelper::call\_init\_config\_args'. A blue arrow points from this box to a white box containing 'BNO08x::init\_config\_args'. A second blue arrow points from this white box to a final white box containing 'BNO08x::reset\_all\_data\_to\_defaults'.

BNO08x::init\_config\_args

BNO08x::reset\_all\_data
