

BNO08x::calibration_end

```
graph LR; A[BNO08x::calibration_end] --> B[BNO08x::lock_sh2_HAL]; A --> C[BNO08x::unlock_sh2_HAL];
```

The diagram illustrates a control flow where the function `BNO08x::calibration_end` (represented in a grey box) branches into two subsequent actions: `BNO08x::lock_sh2_HAL` and `BNO08x::unlock_sh2_HAL` (both in white boxes). Two blue arrows originate from the right side of the grey box, pointing to the left side of each of the two white boxes.
